

SAND KING

HOPPER TRAILER

PRESTIGE
TRAILERS

— INTRODUCING THE ALL-NEW SAND KING.

HOPPER / SAND KING

01_ SINGLE HOPPER DESIGN

Featuring 40° slope angles for quick and easy cleanout, the Sand King's single hopper was designed to keep you moving. For added convenience, a powered chute opener with remote control is available.

02_ CHUTE OPENER

With an opening of 16" x 24", the rack and pinion chute opener operates the stainless steel trap door with ease. The trap door slides on a nylon wear strip supported by nylon rollers.

03_ SEALED HOPPER

Loading the Sand King is easy and efficient with a remote-controlled power fill door on the top of the trailer. The fully sealed and enclosed hopper ensures that sand stays dry.

04_ RIGID AND ROBUST DESIGN

The rigid steel subframe supports the structure of the trailer both at the front and rear. This robust design has durability in mind to provide years of trouble-free service.

BODY STRUCTURE
